SP Committee Chairman on: Education and Information; Laws and Human Rights

AN ORDINANCE INSTITUTIONALIZING THE NAGA AKONG GARBO (NAGa) – OUR SUSTAINABLE CEBU PROGRAM

EXPLANATORY NOTE

The Our Cebu Program is a development program born out of collaboration and Cebuanos' desire to put and maintain Cebu, Philippines on the map as an ideal place to live, work, play, invest, and do business.

Initiated by the Cebu Provincial Government and the Ramon Aboitiz Foundation Inc. (RAFI) and institutionalized through Provincial Ordinance No. 2013-013, this program is implemented throughout the 52 component cities and municipalities of Cebu. It is about helping each city and town in the province put into play the seven dimensions of sustainable development.

This comprehensive integrated development program aims to:

- strengthen the governance systems and structures of local government units;
- improve livability and access to basic services;
- protect the natural environment;
- promote Cebu's eco-tourism; and
- develop sense of pride among Cebuanos through understanding of their culture and heritage

The Our Cebu Program has created the Livable Scorecard System, a tool in the assessment and evaluation process, which is used to measure the performance the local government units of Cebu using the following attributes, namely: Green, Livability, Inclusiveness and Competitiveness, Historical and Cultural, and Resiliency and Governance. It is implemented through the collaboration of a multi-sectoral and multi-disciplinary panel of evaluators from different regional government agencies and private sector.
